Here's to a new school year!

We're well on our way through the 2025 school year, and we couldn't do it without the hard work and dedication of our teachers! Here's what Teacher Billy and Teacher Ozzy had to say about their hopes for another great school year:

Teacher Ozzy 123

I want to let everyone know how excited I am for the 2025 school year with my Junior Class! I am filled with joy to receive new students for another exciting school year. As a passionate teacher who loves what he does, I am so happy and proud of myself for being a great teacher and producing wonderful learners. It's an honor for me to help instill knowledge into the marvelous kids from my class. I can't wait to watch them shine in all areas of academics and school projects like gardening and art. I am also looking forward to seeing the number of kids increase in both Art and Sign Language Club. As a teacher, I will put more energy into making sure all the lessons are delivered and understood by each and every learner.

Teacher Billy

This year in my senior class, I am setting the stage for a fantastic journey of learning and discovery! My class will be filled with curiosity, creativity, and fun as we explore new ideas, and develop important skills that will shape the rest of their school life. Together, we will embrace the excitement of learning through play, hands-on activities, and interactive lessons. One of my main goals this year is to build a strong foundation for each child's confidence and independence. I want to help every child develop a love for learning, where they feel safe, encouraged, and inspired to ask questions, try new things, and express their ideas. From exploring the world around us to diving into the magic of reading, writing, and numbers recognition, this year will be filled with moments of joy and achievement. I look forward to seeing every child grow in their social skills, develop a sense of responsibility, and begin to explore their own passions and interests. Together we'll make 2025 a year full of laughter, learning, and unforgettable memories!

Welcome, Middle Class!

Due to a delay in the rollout of the new national curriculum, our Middle Class was not able to start until February 10th. We are so excited that they're finally back, and they are too! It just wasn't the same without all of our students' smiling faces. We can't wait to see all the great things they do in Middle Class with Teacher Sharon this year!

Spreading
the love on
Valentine's
Day

Our preschoolers showed lots of love on Valentine's Day! They learned all about the history of the holiday and how we use this day to show love to one another. To spread the love, they colored paper hearts to bring home and give to a parent, sibling, grandparent, aunt, uncle, or anyone else they love. We love our penguins!

Little Gardeners...

Our students have been working hard preparing their garden beds to grow delicious and healthy vegetables! Each class has their own garden bed to maintain, giving them the opportunity to learn all about how to grow their own food. Once it's ready, their crops will be cooked up into yummy lunches for them. Talk about enjoying the fruits of your labor! We love watching our penguins sprout into sustainable little gardeners.
